

VIRTUAL JOB FAIR

TUESDAY, MAY 19, 2020

10 AM to 2 PM ET

Focus:

Maryland – Virginia – Washington, D.C.

**and surrounding areas (to include Patuxent River, MD / Andrews
AFB, MD)**

Amelex

www.amelexinc.com

Visit www.amelexinc.com for details on Job Requirements at all locations: Patuxent River MD, Lexington Park MD, St. Inigoes MD, Crystal City VA, Washington D.C. and Charleston, SC.

PROGRAM ANALYST

Responsibilities: Support the Partner Country International Armaments Cooperation Program Management. Act as a team member responsible for all F-35 issues as they relate to the assigned partner nation. Provide program analysis support for all aspects of the program. Collect, complete, organize and interpret technical data and financial information relating to aircraft acquisition and product programs. Track program/project status and schedules. Apply policies and procedures for financial planning.

Education: BS or BA from an accredited university degree in Business, or Management. Allowable Substitution: An AS or AA degree from an accredited university and an additional four (4) years of experience; or an additional eight (8) years of experience may be substituted for a BS or BA degree.

Experience: At least eight (8) years of experience in defense acquisition program management related to weapon systems acquisition and life cycle management; and a minimum of four (4) years out of eight (8) years of recent work experience related to international acquisition programs.

Familiarity with DoD Instruction (DoDI) 5000.2 (Operation of the Defense Acquisition System), DoD Directive (DODD) 5530.03 (International Agreements), and the International Cooperation in Acquisition, Technology and Logistics (IC in ATandL) Handbook.

Demonstrated experience in the development, management and execution of international cooperative projects/programs. Possess exceptional written and verbal communication skills.

Demonstrated knowledge of the principles, policies, and practices of system acquisition to plan, organize, and coordinate critical aspects of the development, production, deployment, and sustainment of systems, subsystems, and equipment.

Demonstrated knowledge of the system equipment life-cycle phases and the documentation, analyses, and reviews associated with those phases.

Other: An **Active Secret Security Clearance** is required.

CONFIGURATION MANAGEMENT ANALYST

Responsibilities: Analyze program requirements, status, budget and schedules. Perform program management, technical, or business case analyses. Participate as a member of and/or supports the specified Program Integrated Product Teams (IPTs); and IPT directed business meetings. Collect, complete, organize and interpret technical data and financial information relating to aircraft acquisition and product programs. Track program/project status and schedules. Apply policies and procedures for financial planning.

Education: BS or BA degree from an accredited university in Engineering, Science and Technology, Business Management or a degree relevant to the position. Allowable Substitution: An AS or AA degree from an accredited university and an additional four (4) years of experience; or an additional eight (8) years of experience may be substituted for a BS or BA degree. Experience: At least six (6) years program experience; a minimum of three (3) years out of the prior six (6) years of program experience must include aircraft systems configuration management.

Demonstrated program experience in the military aircraft configuration management process must include: configuration identification, control, audit, and status; DOD configuration management policies, procedures, review cycles, instructions and standards; engineering change proposal evaluations.

Demonstrated CM experience with development, production, ancillary equipment, ground support equipment, test and evaluation, and fleet operations of a DoD acquisition aircraft program.

Other: An **Active Secret Security Clearance** is required.

SENIOR IT PROGRAM MANAGEMENT ANALYST

Responsibilities: Responsible for interfacing with Program Management Office (PMO) data leads. Coordinate and provide a collaborative function with the various data management vendor Leads. Ensure tasking, actions and governance from the PMOs and Office of the Chief Information Officer (OCIO) are sent to appropriate individuals and organizations, with an understanding of priorities, message and intent. Attend meeting with the Chief Information Officer (CIO) to keep him informed. Assist with communication to and from the OCIO Data Management organization. Assist with the integration across software development and data leads. Develop and prepare briefing material on behalf of the OCIO Data Management organization. Assist with the execution of data initiatives that require senior level attention and leadership. Exhibit an extremely well informed and high level dialogue and decorum that reflects a diplomatic and professional communication and interaction within and outside of the organization. Understanding of the organization and organizational goals. Promote team building and process improvements to maximize efficiency and effectiveness of the OCIO. Streamline processes and break down barriers when needed.

Education: MS or MA from an accredited university in a Computer Science, Engineering or related Information Technology or Business Management degree. Allowable Substitution: A BS or BA degree from an accredited university and an additional four (4) years of experience can be substituted for an MS or MA degree.

Experience: At least ten (10) years' experience in defense acquisition program management related to weapon systems acquisition and life cycle management; and a minimum of five (5) years out of 10 years of recent work experience related to international acquisition programs.

Other: An **Active Secret Security Clearance** is required.

SENIOR CONTINUOUS PROCESS IMPROVEMENT ANALYST

Responsibilities: Perform critical program management, technical, or business analysis of major DoD acquisition systems and provides recommendations for the JPO Continuous Process Improvement (CPI) core team. Provide support in the development and implementation of process improvement initiative and in problem solving using CPI tool sets. Provide program analysis support for efficiency and effectiveness within the organization, assisting and identifying causes of systemic inefficiencies and isolating them through the use of CPI methodologies such as Lean, Six Sigma, and Theory of Constraints.

Education: MS or MA degree from an accredited university in Science, Math, Engineering, Business, Management or a degree relevant to the position.

Allowable Substitution: A BS or BA degree from an accredited university and an additional three (3) years of relevant experience can be substituted for an MS or MA degree. Experience: At least ten (10) years of experience in program management, technical, or business analysis discipline, related to weapon systems acquisition and life cycle management; and a minimum of six (6) years out of 10 years of recent work experience related to analysis and planning. Other: An Active Secret Security Clearance is required.

ACQUISITION ANALYST

Responsibilities: Support the overall management, direction, control, and integration of program acquisition efforts for F-35 development, procurement and operations and support. Meeting support and facilitation, resource tracking, correspondence, and administrative functions. Provide support to the F-35 Directors, IPT Leaders and various procurement leaders in the development and execution of acquisition planning documents from requirements development to contract award. These efforts include planning, analyzing, and supporting procurement actions for assigned efforts. Work across multiple disciplines and functional areas. Track all procurements in the Procurement Management Tool (PMT) or other designated tool. Support the initiation, organization and conduct of Procurement Planning Conferences (PPCs), recommending acquisition timelines and procurement approaches to the procurement leader. Assist in the timely preparation/coordination of procurement packages/requests to include Request for Proposals, Statements of Work (SOWs), Contract Data Requirements Lists (CDRLs), Certificates of Urgency, Justifications and Approvals (JandAs), and other acquisition documents. Participate in and support acquisition planning meetings. Identify and plan acquisition efforts in accordance with policies and procedures across all levels in achievement of program milestones taking into account tailoring and waiver processes to maximize acquisition system efficiency. Assist in drafting, developing, and coordinating executive level briefings, correspondence, and data calls, as well as prepare input to and coordinate staffing papers and staffing packages in response to any number of executive level inquiries.

Education: BS or BA degree from an accredited university in Business, Management or a degree relevant to the position.

Other: An Active Secret Security Clearance is required.

United States Capitol Police

www.uscp.gov

The United States Capitol Police (USCP) is a CALEA nationally-accredited, federal law enforcement agency. The USCP safeguards the Congress, its legislative process, Members of Congress, employees, visitors, and facilities from crime, disruption, and terrorism. We protect and secure Congress so it can fulfill its constitutional and legislative responsibilities in a safe, secure, and open environment.

We are seeking professional individuals for sworn and civilian positions who display the upmost level of integrity, honesty, maturity, and commitment to serve the public. The USCP offers extensive professional development and training, competitive salaries, and comprehensive benefits.

Now Hiring: Dispatchers and Command Center Operations Specialists.

Command Center Operation Specialists - The United States Capitol Police operates a 24/7 Command Center that provides continuous oversight of the Department's operations, assists units in the field when responding to incidents, and disseminates important information to the Congressional community and outside law enforcement agencies. We are seeking civilian Command Center Operations Specialists to provide technical, advisory, and analytical services for the day-to-day management of the Command Center. As a 24/7 operation, this position requires shift work. You do not need to be a police officer to apply, but you will work alongside law enforcement officers. Serving in the USCP Command Center is an exciting and dynamic opportunity where people, process, and technology come together to secure the U.S. Capitol Complex. In this role, specialists will continuously monitor, analyze, report, and coordinate operations across the U.S. Capitol campus. You will identify threats and simultaneously evaluate the impact of those threats to minimize risk to ongoing operations. Ideal candidates will be able to anticipate problems before they happen, think on their feet during an emergency, and thrive in a team environment.

Communications Operators (Dispatchers) - The United States Capitol Police operates a 24/7 dispatch center that facilitates emergency calls regarding the safety and security of the U.S. Capitol Complex. We are seeking several Communications Operators (Dispatchers) to answer 911 emergency calls, monitor alarms and security systems, and dispatch all police and emergency services across the U.S. Capitol Complex. As a 24/7 operation, this position requires shift work. You do not need to be a police officer to apply, but you will work alongside law enforcement officers. Being a Dispatcher is a rewarding and fulfilling profession where you can make a difference, one call at a time. Dispatchers must be able to make critical decisions, often with limited time and information during potentially high-risk situations.

To join our team, please visit the Career Opportunities section to view current USCP job vacancies. The USCP also strongly encourages all prospective applicants to review the minimum qualifications, application process, and selection process prior to applying, to best determine suitability with regard to the requirements and conditions for a position with the Department.

Contact Us: United States Capitol Police / 119 D Street, NE Washington, DC 20510 / Phone: (202) 593-4236 / Email: Recruiting@uscp.gov
